The Psychology Today Search Tool

<https://www.psychologytoday.com/us>

Choose the “find a therapist” option. Filter the results by factors, such as: insurance accepted, topics to address, types of therapy used (if you have a preference), and faith preference (which is found under the “more” tab for more filters after the results list appears). The result list of bios for licensed therapists is a way to get a feel for who might be a good fit for you and be able to contact them directly through their listing. It's recommended to contact a few therapists to ask similar questions to decide on the one with whom you'd like to take next steps.

Congregational Care / Stephen Ministry
www.damascus.com/prayer-and-care

Stephen Ministry Description of Care:
Stephen Ministry is a distinctly Christian ministry based on the biblical principle that Christ cares for people through people." Christ is the source of the hope and healing that Stephen Ministers offer their care receivers. Our Stephen Ministers are members of Damascus Road who are highly trained "to provide one-to-one care to those experiencing a difficult time in life, such as grief, divorce, job loss, chronic or terminal illness, or relocation. Stephen Ministers come from all walks of life, but they all share a passion for bringing Christ's love and care to people during a time of need." Each Stephen Minister receives 50 hours of initial training as well as continuing education. Stephen Ministry is a confidential ministry. The identity of those receiving care and everything they discuss with a Stephen Minister remain private.

Praise be to the God and Father of our Lord Jesus Christ, the Father of compassion and the God of all comfort, who comforts us in all our troubles, so that we can comfort those in any trouble with the comfort we ourselves receive from God.
